1. Any bird/s presented showing obvious signs of deformity, sickness or disease in the opinion of the Auction Coordinator shall be removed from the auction staging to a predetermined 'quarantine' area.
2. The Auction Coordinator will notify the Vendor with respect to the reason for non-acceptance and the requirement to remove the bird/s from the venue.
3. During the Auction any bird may be de-benched and 'quarantined' if in the opinion of the Auction Coordinator it is deemed that its condition has changed such to warrant removal. In this instance, the previous clause applies.
4. The need to remove a bird from the auction based on deformity, sickness or disease shall be made regarding the Disqualification clauses of The Standard and in particular "Symptom of illness", "Presence of Mites", "Presence of Lice" and the "Deformity or injury" clauses.
5. In the best interests of the hobby, it is expected that birds with any other known or suspected problems will not be placed in the auction without written disclosure clearly attached to the front of the cage.

PURCHASERS

1. Each person will be required to register prior to the auction. Each person will receive a bidder's number. The bidder's number will be required to purchase any lots at auction and must be shown to the auctioneer after the fall of the hammer.
2. All lots will be submitted in the order in which they appear in the catalogue.
3. All conditions and warranties expressed or implied by law are hereby excluded and as all lots are open for inspection prior to commencement of the sale, the same are sold with all faults, if any, therefore no compensation shall be made in respect of any fault or imperfection or error of description of any lots sold or otherwise. Upon the fall of the hammer each lot shall be at the purchaser's risk.
4. The auctioneer reserves the right to accept or refuse any bid on birds without having to state the reason or reasons thereof.
